Director of International Admissions,
Office of International Education,
Emporia State University,
Kellogg Circle Campus,
P.O Box 4041, Emporia

Dear Sir/Madam,

RE: WAMBUA ABIGAEL NZILANI

I have known Abigael since 2017, while she was undertaking her undergraduate studies at Moi University, School of Engineering, Department of Civil and Structural Engineering. She graduated with a First Class Honours Bachelor of Engineering in Civil and Structural Engineering on 21st December 2023 and was among the best students in her class. Abigael maintained herself among the top performers in her class throughout the five years of study.

I have no hesitation in testifying that Abigael is a committed and self-driven person. She is also a hardworking, resourceful, honest and competent person. Abigael has a very high academic potential and ability to handle postgraduate study program in any competitive international environment.

I strongly recommend that your University consider her for admission to the MBA Business Administration program she has applied. Attached, kindly find her undergraduate Degree Certificate and first to fifth year academic transcripts for your consideration. In case you need any information concerning her, please do not hesitate to contact me on njorogesmburu@mu.ac.ke, or cse@mu.ac.ke.

Yours sincerely,

CHAIR
DEPARTMENT OF CIVIL & STRUCTURAL ENGINEERING
SCHOOL OF ENGINEERING
MOI UNIVERSITY

Dr. Eng. Simon M. Njoroge (PhD, PE, MIEK, FHEA)
Chair, Civil and Structural Engineering
